Kangaroos are sentient beings who live in close family groups that are sometimes referred to as _____. When _____ members are lost, kangaroos grieve. Female kangaroos can have one baby per year, and over each female's lifetime, she is lucky to have _____ joeys survive through to adulthood.

Kangaroos can jump as high as _____metres and cover a distance of more than _____metres in a single bound, at speeds more than _____km/h. As they jump throughout the Australian landscape, their toes _____ compacted and depleted soils, and their fur traps _____ and _____ which can be spread around and left in ready-made holes created by their large _____. Their tails also help them move and act like a third _____, using as much force as both the front and hind limbs!

Kangaroos are _____, and they graze on grasses, flowers, leaves, ferns and moss. Because of the way they graze only on the tops of native dry grass, they reduce the risk of _____ and play an important role in the regeneration of the Australian bush, and are even responsible for the survival of other native wildlife species such as the _____.

Wildlife carers dedicate their lives to rescuing and rehabilitating injured and orphaned kangaroos. Many of the kangaroos that come into care are victims of _____ shooters, and they are often _____ who have lost their mothers and are unable to survive without them. Caring for orphaned joeys can take _____ years until they are ready to be released in the wild, requiring a lot of expertise, dedication, and time for wildlife carers.

We can help kangaroos by talking to our friends and family about what we have learnt, and by refusing to buy food and products that are made from our kangaroo friends. We can even write letters to the Prime Minister and our local state Minister, telling them that we are against the killing of kangaroos and their joeys for profit, and we want to see a world where we can live in harmony with kangaroos.

YUIN DECLARATION FOR KANGAROOS

WORLD KANGAROO DAY OCTOBER 24TH

ARTICLE 1.

The kangaroo has inhabited the Australian continent for over 20 million years, living in peace and ecological harmony. The kangaroo co-exists today as they have for millenniums, in balance with the flora fauna and livings being of this land. This ancient iconic native animal, therefore claims sovereign rights above and beyond any human claims of dominion over them. Today we declare, from this day forward, all kangaroos shall be justly protected from all harms caused by human abuse and exploitation. We vow to hold governments and their citizenry accountable for any breaches of this sovereignty.

ARTICLE 2.

Kangaroos are intelligent, sentient beings, living in family groups and have their own songlines, language, culture and dreaming. As they traverse their own dreaming tracks they continue to activate the earths songlines for the survival of all living things. We declare kangaroos have the right to live in safety, roam freely and travel uninterrupted through their ancient songlines.

ARTICLE 3.

We recognize that kangaroos continue to be a sacred totem for First Nation People. From navigating as the geographical compass, food source, companion and friend, providing warmth and implements, kangaroo is central to ceremony. For over 80,000 years this sentient being continues to be entwined and interwoven with indigenous totemic lore. We declare that there exists a living ancestral relationship, uniquely bound between indigenous Australians and kangaroos, which shall be preserved historically, spiritually, culturally and environmentally for all times.

ARTICLE 4.

Kangaroos have been acknowledged as the symbol for colonised Australia since 1773. They are observed on the Coat of Arms, and have become the central national icon. The kangaroos abounding power, majestic movement, and soft and gentle elegance has given this landscape

its unique character. We recognise and honour the stately demeanor of the kangaroo, which embodies and represents the nations' icon. We vow to revere and respect these profound qualities which enrich all lives with imagination, beauty and identity uniquely Australian.

ARTICLE 5.

We are beholden to protect and care for our unique native kangaroos as part of the Australian Family of all living beings. Therefore we declare the kangaroo as one of our national treasures.

ARTICLE 6.

We recognize that kangaroos are protected by law across both Federal and State jurisdictions. No exemptions to these laws are justified. Kangaroos shall not be sold or subjected to any inhumane, cruel or degrading treatment. Any harm to kangaroos shall be recognized as a criminal action and dealt with accordingly.

ARTICLE 7.

As humane beings, sharing the kangaroos dreaming tracks and environment, we have a duty of care and obligation to canonize WORLD KANGAROO DAY for the kangaroo our Australian national treasure.

Kangaroo Kryptogram

Easy

In a cryptogram, each letter is substituted for another. In this the easy cryptogram, the letters will be offset by a number of letters, for example if offset by -1 then A will be represented by Z and B will be represented by A etc. Note: start by identifying one known word that will most certainly be contained in the cryptogram. Can you guess what that word might be? All phrases and sentences can be found on Yuin Declaration for Kangaroos.

There are two sections, Section A is a phrase and Section B is a sentence.

Section A - Easy / phrase

KANGAROO FILL IN THE GAP

Kangaroos are sentient beings who live in close family groups that are sometimes referred to as mobs. When mob members are lost, kangaroos grieve. Female kangaroos can have one baby per year, and over each female's lifetime, she is lucky to have two joeys survive through to adulthood.

Kangaroos can jump as high as 3 metres and cover a distance of more than 9 metres in a single bound, at speeds more than 56km/h. As they jump throughout the Australian landscape, their toes aerate compacted and depleted soils, and their fur traps spores and seeds which can be spread around and left in ready-made holes created by their large toes. Their tails also help them move and act like a third leg, using as much force as both the front and hind limbs!

Kangaroos are herbivores, and they graze on grasses, flowers, leaves, ferns and moss. Because of the way they graze only on the tops of native dry grass, they reduce the risk of bushfires and play an important role in the regeneration of the Australian bush, and are even responsible for the survival of other native wildlife species such as the koala.

Wildlife carers dedicate their lives to rescuing and rehabilitating injured and orphaned kangaroos. Many of the kangaroos that come into care are victims of human shooters, and they are often joeys who have lost their mothers and are unable to survive without them. Caring for orphaned joeys can take two years until they are ready to be released in the wild, requiring a lot of expertise, dedication, and time for wildlife carers.

We can help kangaroos by talking to our friends and family about what we have learnt, and by refusing to buy food and products that are made from our kangaroo friends. We can even write letters to the Prime Minister and our local state Minister, telling them that we are against the killing of kangaroos and their joeys for profit, and we want to see a world where we can live in harmony with kangaroos.
